

why? emerald

clear aligners

One Vendor

All your orthodontic solutions, **all in one place**—save time and eliminate the hassle of managing multiple vendors.

Personalized Service

Corporate giants can't match the personal service we offer—**our techs guide you through your cases** with care and expertise. An orthodontic lab doing orthodontic work for over 40 years

Save & Grow

Save more, offer more, and grow more—our cost-effective solutions support your patients' pocket and your bottom line. See Emerald Price Sheet

High Success Rate

We **take a holistic approach** to each treatment plan to eliminate excess IPR and **increased predictability**.

What's Included?

- Aligners
- Attachment Templates*
- Aligner Case with Mirror
- IPR Guide
- IPR Strips*
- Instructions for Patient
- Chewies

*if applicable

Zendura FLX

Uses a dual-shell design combining an elastomeric inner core to provide flexibility, with a hard outer shell to increase elasticity and firmly grip teeth.

Mild to Moderate

We have a strict case selection process. We do not move forward with cases outside our expertise—our reason for a 20-tray maximum per arch

Optimized Experience

Every case is submitted through Onyx, a cutting edge AI software that maximizes movement efficiency and is reviewed by a team of certified Orthodontists.

Emerald Clear Aligners are a brand of Perfect Finish Ortho Lab, LLC designed and manufactured by K Line GMBH Europe for the correction of malocclusions. Contact us for more information.
